

Dear Colleague:

The In-Plant Printing and Mailing Association (IPMA) was pleased that you chose to send a representative from your organization to IPMA's 2009 Conference in Rochester.

For over 50 years IPMA has supported the needs of in-house printers and mailers, as well as their parent organizations. Our 7 keynotes and 29 program sessions focused on issues of real relevance to today's organizations including building revenue, cutting costs, and developing greater efficiencies.

Throughout the year, we will continue to offer value-added services and solutions to your in-house team through:

- Webinars on the Latest Print/Mailing Advancements
- Market Surveys
- Bulletins, Newsletters, Publications
- On-line Support through our ListServ and Web Site
- Plus Other Member-Exclusive Resources

Our goal is to help in-plants provide their parent organizations with the best products and services possible.

Thank you for allowing IPMA to share its resources and expertise with your organization.

Sincerely,

Debbie Pavletich
President, IPMA
